2009 HUMAN SERVICES COMMITTEE BILL SUMMARY	27

December 2009

2009 Legislative Report
Assembly Committee on Human Services

Jim Beall, Jr., Chair

The Assembly Committee on Human Services has jurisdiction over programs and services designed to assist the state's most vulnerable populations – children who have been abused or neglected, people with disabilities, low-income families and the elderly. Its Chair is Jim Beall, Jr. (D-San Jose). The Committee was busy in 2009 working on legislation intended to conform to the federal Fostering Connection to Success Act, promote family-based foster care placements, address program integrity in the In-home Supportive Services (IHSS) program, and promote employment for individuals with developmental disabilities. The Committee also approved legislation to protect the elderly in residential care facilities, improve safety in child care facilities, allow asset building for CalWORKs recipients, and increase access to food stamps. Finally, the Committee played a role in minimizing the impact of the current fiscal crisis on social services programs. Of the 64 bills referred to the Committee in 2009, 55 passed the Legislature and 22 became law.

The Committee devoted much attention to the problems and concerns of the nearly 80,000 children in the care and custody of the state's foster care system as a result of abuse or neglect. There were more bills affecting this subject than any other – 23 were referred to the Committee, 21 passed the Legislature and 12 were enacted into law. Key among them was **AB 12**, authored by Chairperson Beall and Speaker Bass, to opt into the federal Fostering Connections to Success Act of 2008 to allow for federal financial participation in kinship-guardianship assistance payment (Kin-GAP) programs and transitional foster care services for eligible youth from 18 to 21 years of age. This bill is now a two-year bill, and discussions will continue in 2010. **SB 597 (Liu)** also makes changes to state law to conform to the Fostering Connections Act.

Other significant legislation included **AB 82 (Evans)** to establish a pilot project to better inform foster children receiving psychotropic medications and **AB 295 (Ammiano)** to remove pilot project status from wrap-around services for foster children and their families. The Committee authored **AB 706** to improve the process of providing reunification services and scheduling juvenile court review hearings for children who are dependents of the juvenile court and their parents or guardians. In addition, the Committee heard and approved several bills promoting greater family-based placement including: **AB 743 (Portantino)** to require social workers to make reasonable efforts to place siblings in foster care together, **AB 770 (Torres)** and **AB 1325 (Cook)** to facilitate Indian tribal adoptions, **AB 938 (Judiciary Committee)** to require social workers to contact a child's adult relatives when they are placed in foster care, and **SB 118 (Liu)** to require that a child welfare services case plan include information about whether a child has an incarcerated parent.

The Committee also heard and approved significant human services bills affecting seniors and persons with disabilities. The Committee heard two bills to assess or address IHSS fraud: **AB 682 (Lowenthal)** to require the Department of Social Services (DSS) to evaluate the implementation of five program assurance provisions related to IHSS and **SB 141 (Maldonado)** to require a legal certification on provider timesheets and to add civil penalties for IHSS fraud. The Committee also heard **SB 142 (Maldonado)** to require IHSS providers to receive a list of approved tasks to be performed for each recipient under the provider's care. The Chair authored two bills to aid those with developmental disabilities: **AB 140 (Beall)** to establish a dispute resolution process for disputes between regional centers (RCs) and generic agencies and **AB 287 (Beall)** to establish an "employment first policy" for transition age youth and working age adults with developmental disabilities.

The Committee also heard two bills designed to protect the elderly: **AB 407 (Beall)** to require continuing care retirement communities to provide written notice 90 days in advance to DSS and affected residents in the event of their permanent closure and **SB 781 (Leno)** to provide additional information to a resident receiving a notice of eviction from a Residential Care Facility for the Elderly.

Child care issues were also of central concern to the Committee. **AB 304 (Price)** requires child care alternative payment providers to offer providers the option of receiving state subsidy reimbursements via electronic banking. **AB 627 (Brownley)** requires all licensed child care providers to adhere to specific nutrition requirements and establishes a pilot program that provides a higher meal reimbursement rate to providers that meet specific nutrition and physical activity standards. The Committee approved two bills to improve child care safety: **AB 1368 (Adams)** to extend to small family child care homes the requirement that someone trained in CPR and first aid be present at all times and **SB 702 (DeSaulnier)** to require TrustLine clearance of anyone supervising children in an ancillary day care center.

The Committee also addressed welfare-to-work and anti-hunger issues. The Committee heard and approved **AB 510 (Evans)** to stop the timeclock on CalWORKs when insufficient funding is available, **AB 1058 (Beall)** to remove the vehicle eligibility test for CalWORKs and allow CalWORKs recipients to build assets to limits permitted by federal law, and **SB 774 (Ashburn)** to require criminal histories for county welfare department applicants who will work with children. The Committee heard and did not approve **AB 631 (Tran)** to require welfare fraud investigators to make "home calls" to verify CalWORKs applicants' eligibility.

Two bills approved by the Committee were designed to reduce barriers to receiving food stamps: **AB 643 (Skinner)** to transfer food stamps benefits to another county when a recipient changes residences and **AB 1057 (Beall)** to change the process of verifying an applicant's identity and to change reporting periods from quarterly to semi-annually. Two bills approved by the Committee also expanded food stamp eligibility: **AB 719 (Lowenthal)** to provide a year of federal food stamps to independent foster youth and **AB 1198 (Swanson)** to allow individuals convicted of drug-related felonies and pursuing drug treatment to receive food stamps.

In addition to acting on legislation referred to the Committee, the Committee played a central role in working with stakeholders to reduce the impact of the current fiscal crisis in California on social services. Staff from the Committee participated in the Department of Developmental Services (DDS) workgroup to identify \$334 million in General Fund reductions to DDS.

A complete summary of bills referred to the Human Services Committee in 2009 follows.

CHILD WELFARE SERVICES/FOSTER CARE

AB 12 (Beall/Bass) – California Fostering Connections to Success Act Held on the Assembly Appropriations Suspense file (2 year bill)

1. Requires the Department of Social Services to exercise its option under federal law to enter into kinship guardianship assistance agreements with relative guardians of children who exit foster care, replacing California's CalWORKs Kinship Guardianship Assistance Program (KinGAP) with a new federal KinGAP program.
2. Extends foster care, KinGAP, and the Adoptions Assistance Program (AAP) services to age 21 for youth completing secondary education or an equivalent credential, enrolled in a postsecondary or vocational institution, participating in a program designed to promote or remove barriers to employment, employed at least 80 hours per month, or incapable of doing one of the above due to a documented medical condition.

AB 627 (Brownley) Child care: nutritional requirements
Vetoed by the Governor

Requires that child day care facilities meet specified health and nutritional requirements, as specified. Specifically, this bill establishes a 12-month or more pilot project in which a number of licensed child care centers and child day care homes that participate in the Child Care & Adult Food Program (CACFP) would receive higher state meal reimbursement to implement higher nutrition and physical activity standards. A component of the pilot is an evaluation that will be conducted by an independent agency to assess the health, nutrition and other related impacts on children, providers, and parents. The pilot would be designed and implemented by the California Department of Education (CDE) only if the Superintendent of Public Instruction determines that non-General Fund funding sources, including federal or grant funds, are available to implement the pilot project.
